

PPM Current State Diagnostic

Only 49% of **project capacity** is used productively by the average organization.

Ensure Project Portfolio Management creates effective alignment with organizational goals and leverages resource capacity.

Use our **Project Portfolio Management Scorecard** to:

- Understand your current strengths and weaknesses
- Eliminate waste and increase project throughput
- Establish appropriate priorities and manage expectations

Your investment,
\$8,000

Diagnostics include a quantitative survey and a verbal presentation along with a written report of our findings. Most diagnostics can be completed in 2 to 4 weeks (longer for large organizations).

Optimize your project portfolio management processes and resource utilization!
